This is part of Dr. Monica Zuretti's initiative for offering multiple workshops around the world on the same date, on the same topic. Dr. Zuretti's initiative was developed based on the Argentinian tradition for offering psychodrama & sociodrama on the streets of Buenos Aires; and most recently, initiated by her conversation during a large plenary session at the International TELE'DRAMA conference in August 2020.

**Five questions will be addressed during the workshop:**

What are we... feeling?  
needing?  
learning?  
strengthening?  
dreaming?
